Sri Lanka.

04th Nov. 2008.

Hon. Sir,

My son, Dulaj Wikum Paranavithana has been suffering from a hearing trouble for a considerable period. He has to face a big problem in his studies due to this trouble.

E.N.T. Specialist, Dr. R.P. Dayasena who is consulting my son informed us to fix Hearing Aids. Further to that he has confirmed, if my son is fixed hearing aids, his listening will be OK.

According to his instructions, we got a price of Rs. 40,000/- for Hearing Aids from the National Council for the Deaf.

As my son has been suffering from Asthma since his childhood, we have to spend a considerable amount of money for this illness. Therefore, it is very difficult to get money to provide him Hearing Aids. I have attached copies of necessary documents for your kind consideration.

Please be kind enough to consider my humble appeal and give your favourable contributions to fix him Hearing Aids. Your kind attention in this regard is highly appreciated.

Yours honestly,

D.C. Deepal Paranavithana
(Father)

TO : Divisional Secretary - Kelaniya

This is to certify that the above statement made by Mr. D.C. Deepal Paranavithana of the above address is true and accurate.
